Education

Medi-Caps University ,Indore(M.P), India

2021 - 2025

- B.Tech. Information Technology(IT) |CGPA– 8.81

St Paul's Convent Senior Secondary School , Ujjain(M.P), India

- CBSE(Class XII) : 92.4%
- CBSE(Class X) : 87.8%

May 2021
June 2019

Skills

Languages: C • Java • SQL

Libraries and Frameworks : Spring MVC • Hibernate • Spring Boot • Data JPA • REST API • Microservices

Web Technologies : HTML • DHTML(CSS) • Cookies • Cache management • XML • AWS

Conceptual Proficiency: Data Structures and Algorithms • OOPs • DBMS • Software Engineering • OS

Projects

1. Medi-caps University Employee Recruitment

July'24 - Aug'24

- The Employment Recruitment is a live project developed for Medi-caps University which aims to streamline and enhance the recruitment process for job seekers and employers
- This live project involves the development of a comprehensive platform that facilitates job postings, application management, and candidate selection
- **Tech Used:** Spring Boot, Hibernate, MySQL Database, HTML, CSS, JavaScript

2. Millings & Commodities

March'24 - April'24

- This is a Android based application based on request-response based working which picks-up the raw cereals(like: wheat, maize) and delivers the milled cereals(like: wheat flour, corn flour) .
- The project leverages modern technology to streamline the process of purchasing flour and accessing milling services, catering to the needs of both individual consumers and businesses
- **Tech Used:** Android Development , SDK , XML , Firebase & Firestore Database .

3. CharityON

July'23 – Aug'23

- Developed a web-based platform focused on aiding street beggars, handicapped children, and adults.
- The application facilitates fundraising, unskilled employment opportunities, and the distribution of essential resources like food, clothing, and stationery. Integrated features include user feedback and complaint management, ensuring comprehensive support for vulnerable communities
- **Tech Used:** Advance Java, JSP, Servlet, SQLyog database, HTML, DHTML .

Internships

MII (Medi-caps Innovation and Incubation Foundation) | IT /Computer-Software
Software Developer Intern

July'24 – Aug'24

As a Software Developer Intern at MII Foundation, I contributed to the development and optimization of a live Employment Recruitment project . I collaborated with cross-functional teams to deliver high-impact features, leveraging technologies such as Spring Boot, JSP, and MySQL.

Training And Certifications:

- AWS Academy Graduate - AWS Academy Cloud Architecting
- AWS Academy Graduate - AWS Academy Cloud Foundations
- NPTEL - Cyber Security and Privacy
